

Taiba Hospital celebrates Gergeean with the children of Hussain Makki Centre and Care and Orphanage homes.

Happy Eid and may God accept your works during this holy month.

In the occasion of the holly month of Ramadan and the Gergeean celebrations, Taiba Hospital organized a Gergeean party for the children of Hussain Makki Jumaa for Cancer Treatment. The event was organized in coordination with the Society Service Centre at Hussain Makki, Care homes for the disabled and orphans. Several staff members of Taiba Hospital joined the traditional celebrations, which we cherish, in order to bring joy and happiness to the children through entertaining contests with the participation of cartoon characters and giving away prizes and Gergeean candy to everyone. The celebrations have given hope and joy to children, and drawn smiles on their faces.

May God accept our fasting and prayers ...

It is our pleasure to congratulate you on the occasion of Eid Al Fitr through a bouquet of love and giving. May God bless Islam and Muslims with honour, and repeat it next year with blessing and benediction.

Eid Al Fitr is a unique occasion to be capitalized by people in showing respect and love to their parents, families and neighbours through the exchange of visits and congratulations and other forms of joy. It is also a great opportunity to clear any conflicts with your beloved ones and to remove the hate and disavour that Evil has planted in the hearts of opponents.

A word of congratulations can remove all of those obstacles and heal plenty of wounds among spouses, families and friends; and dampens the relations that have dried over the past and revives it with love and pleasure.

This is an invitation to you from us to spread the spirit of love and brotherhood away from anything that may distort our hearts. We offer you the loveliest congratulations and Happy Eid Al Fitr.

Mr. Rashed Alfadala, Chief Operating Officer at Taiba Hospital, indicated that the hospital is always keen to participate in such social events, which the hospital gives great care, emphasizing on the private sector's role in corporate social responsibility.

Mr. Alfadala further noted that Taiba strive to go beyond its medical service to provide support to various social and children care establishments, expressing his happiness to participate in such events that are although simple, but certainly draw smiles on the faces of these children.

Happy Birthday
